

MXL VPS Bundle: Versatile podcasting bundle now available

MXL offers an attractive bundle for podcasting and recording in top quality: Consisting of dynamic broadcast microphone BCD-1 with cardioid directivity and high-resolution HD USB camera CV502-U3 by Marshall, the MXL VPS Bundle is aimed at content creators – from beginners to professionals. The scope of delivery spans comprehensive accessories and all components to start recording immediately. The Bundle is available immediately in a single (SOLO) as well as a double (DUO) variant.

The contents of this press release

- cma audio announces availability of MXL VPS Bundle
- MXL BCD-1 and Marshall CV503-U3: Best intelligibility and razor sharp images
- Comprehensive accessories: Unbox, setup, go!
- General information, prices and availability

Planegg, 30th August 2018 – The VPS Bundle, consisting of a high-quality MXL microphone and an excellent Marshall camera forms a complete top-quality podcasting solution. The bundle is available immediately in two variations.

MXL BCD-1 and Marshall CV503-U3: Best intelligibility and razor sharp images

The MXL BCD-1 is a professional-level radio microphone, thus forming the ideal base for high-quality podcasts and recordings. The dynamic microphone rejects sound from the sides and the back to allow for optimal results even in lively environments. The floating capsule mounting avoids mechanical noise. The HD USB camera CV502-U3 by American camera specialist Marshall Electronics is a matching companion, offering video in equally outstanding quality. The compact model transmits up to 60 frames per second in Full HD

PRESS RELEASE

resolution (1,920 by 1,080 pixels) via USB. One highlight of this camera is the option to switch the 126° M12 lens included with the purchase with a range of optional lenses to change the picture style.

Comprehensive accessories: Unbox, setup, go!

From beginner to professional: The MXL VPS Bundle provides high-quality components and all elements required to start recording immediately. The included Mic Mate Pro is an XLR-USB-adaptor comprised of an integrated mic preamp, A/D converter and headphone jack. The Mic Mate Pro easily connects the microphone to the computer without the need for any additional equipment. The adjustable headphone output also allows for latency-free monitoring of the input signal. A spring-articulated boom arm for convenient microphone positioning is also included, as is a USB 3.0 hub to connect all components to a single USB port on the computer.

General information, prices and availability

The MXL VPS Bundle is available immediately in a single (SOLO) and a double (DUO) variant. It is distributed exclusively by cma audio GmbH in Europe. The DUO variant contains two microphones, two cameras and two stands to enable podcasters to record with guests and partners. The MSRP including VAT for the SOLO Bundle is 799.00 euros and 1,599.00 euros for the DUO variant.

About Marshall Electronics, Inc.

For more than 30 years, Marshall has been manufacturing high-quality video, audio and multimedia products for professional broadcast and AV productions, audio applications and conferencing. The US-based company emphasizes great value for money without any compromises regarding quality or reliability. With the brands MXL and Mogami, the portfolio also offers superb audio solutions and cables. Marshall cameras are used by some of the most discerning companies and organisations around the world, for example during sporting events in the fields of Basketball, Ice Hockey, Motor Sports and Mixed Martial Arts. They are also relied on for American Football, where their pictures are broadcast into millions of homes worldwide. This professional aspiration is present throughout the whole portfolio, from POV cameras for exciting live streams to PTZ cameras for sophisticated conferencing systems. www.marshall-usa.com
