

## Lake People G105 Mk II: professional headphone amplifier handmade in Germany

G105 Mk II is the successor to the popular headphone amplifier by Lake People. The updated version delivers more output, improved signal-to-noise ratio and better crosstalk attenuation. A five-stage pre-gain switch perfectly adapts the amplifier to different headphone impedances. In addition to its balanced inputs, the G105 Mk II offers a switchable unbalanced connection as well as mono and phase reverse buttons. The innovative split function allows both headphone outputs to be supplied with two different mixes for two musicians.

### The contents of this press release

- Lake People presents G105 Mk II
- Improved specifications, improved sound
- Suitable for every impedance
- Convenient enhancements
- German manufacture quality
- Price and availability

**Gauting, Germany, 3<sup>rd</sup> February 2022** – Lake People has been working for decades on perfecting its products according to the slogan "Tools, not Toys". The new headphone amplifier G105 Mk II is the result of these optimisation efforts and convinces with improved specifications and several practical extensions.

### Improved specifications, improved sound

Lake People manages to push the already impressive specifications of the G105 even further. The G105 Mk II now drives the headphones of choice with an impressive output of up to 2,300 milliwatts. Crosstalk attenuation and signal-to-

### Summary

**Lake People G105 Mk II:**  
professional headphone amplifier  
handmade in Germany

**Manufacturer**  
Lake People

**Product names**  
G105 Mk II

**Price**  
404.19 EUR

**Availability**  
February 2022

**Distributor**  
cma audio GmbH

## PRESS RELEASE

noise ratio have also been further refined by the engineers at the Lake Constance based manufacture to ensure a clear, unaltered sound image. With such outstanding qualities, this professional excels in its performance, suiting even the most demanding mastering applications.

### **Suitable for every impedance**

Headphones vary not only in driver configuration and can design, but also in their impedance. Lake People knows how to overcome this particular challenge. With five switchable pre-gain levels of -6, 0, +6, +12 and +18 decibels, the new G105 Mk II drives every headphone at its optimum and allows for a comfortable amount of travel of the volume pot. High output voltage perfectly feeds high-impedance headphones, while the ample amount of output power gets the best out of low-impedance headphones and even magnetostatic models. The Lake People G105 Mk II amplifies any model perfectly.

### **Convenient enhancements**

Lake People G105 Mk II connects to unbalanced or balanced sources via RCA or XLR inputs, with the source being selectable via a switch. The innovative split circuit distributes the stereo input channels to each of the two headphone outputs in mono, allowing for two musicians to be addressed with different mono monitor mixes. The balance pot adjusts the volume difference between the two headphone outputs. The G105 Mk II also features a toggle switch that sets the input signal to mono or reverses the phase of one of the stereo channels. This feature set makes the G105 Mk II a high-quality and versatile monitoring tool for recording and mixing situations.

### **German manufacture quality**

All Lake People products are designed and manufactured entirely in the company's own manufacture near Lake Constance, including the new G105 Mk II. Its carefully selected components are assembled by highly trained specialists to create an innovative circuit design in a compact enclosure made from black anodised aluminium. From the ultra-precise 25-mm all-aluminium volume-control Alps potentiometer to the efficient internal power supply, Lake People guarantees premium quality and true sustainability through durable, sophisticated design.

### **Price and availability**

The new G105 Mk II headphone amplifier from Lake People will be available from specialist dealers from February 2022. The MSRP excluding VAT is 404.19 euros.

### **About cma audio / Lake People electronic**

As a company group, cma audio GmbH and Lake People electronic GmbH are ideal partners and service providers for products and solutions in audio technology. Lake People develops and manufactures high-quality audio electronics and cma audio distributes audio products, systems and services.

With its brands Lake People, Vioelectric and Niimbus, Lake People electronic GmbH provides both professional and audiophile markets with excellent headphone amplifiers, converters and tools. The claim "Made in Germany" defines the company and its 35-year tradition. The entire development and

## PRESS RELEASE

manufacturing take place under the watchful eye of founder and mastermind Fried Reim in Constance, with even most of the suppliers coming from Germany.

Distribution is handled by cma audio GmbH, the experienced and globally operating value added distributor. For German brands, cma audio opens markets around the world, while also granting international brands wide-ranging access to European markets. Renowned brands like Audeze, Chord Electronics, IsoAcoustics, MARIAN, Mogami, OEAudio, Prism Sound and SPEAR Labs trust in the services of cma audio. The team, located in Gauting near Munich, Germany, passionately and competently care for the company's exclusive portfolio and have established cma audio as a reliable partner for resellers, online shops, system houses and professional as well as institutional users for over 20 years.
